WORK EXPERIENCE

A&M Technologyz
Ui/Ux Designer

- PRESENT

- As a skilled UI/UX designer, I have successfully led and contributed to the design of intuitive and visually appealing digital products across various industries. My expertise lies in creating user-centric designs that balance aesthetics with functionality, enhancing user engagement and satisfaction. I have a deep understanding of design principles, user research, wireframing, prototyping, and usability testing, enabling me to craft seamless experiences for web and mobile platforms.

Zidio Development
Ui/Ux Designer

Jul 2024 - Sep 2024

- Collaborated with cross-functional teams, including developers, product managers, and marketers, to align design goals with business objectives and ensure seamless handoff of design assets for implementation.
- Designed and maintained scalable design systems and component libraries, improving efficiency and consistency across multiple products.

Bradndora
UIUX Designer

Jan 2023 - Jun 2023

- Led end-to-end design processes for web and mobile applications, including user research, wireframing, prototyping, and high-fidelity visual design, delivering intuitive and engaging user experiences.
- Conducted usability testing and A/B testing to gather user feedback, iterating on designs to improve user flows and product functionality, resulting in a [X]% increase in user retention.
